

# Military Surface Deployment and Distribution Command

## Ref: SDDC Fuel-Related Rate Adjustment Policy (TR-12)

1. Rate Adjustments are based on the national average diesel fuel price as published by the Department of Energy (DOE), Energy Information Administration (EIA) on the first Monday of the month (or the first business day after a Monday if the Monday falls on a Federal holiday).

2. The adjustment for the corresponding shipping period is a result of comparing the EIA price with the SDDC Fuel Policy baseline. This determines the applicability of a Fuel-Related Rate Adjustment. The Shipment Period column indicates the effective period of the specific rate adjustment. Shipments must be picked up during this time period for the adjustment to apply.

3. The table below is to be used to determine the Fuel Related Rate Adjustment under the Personal Property Program. Column 4 states the Fuel Related Rate Adjustment for shipments subject to the \$2.50 baseline. The \$2.50 baseline is being implemented in two phases. The first phase, effective 1 April 2007, applies to the domestic line haul portion of international movements, including Alaska and Hawaii. The second phase, effective 1 May 2007, applies to the line haul portion of domestic interstate and intrastate movements, including Alaska and Hawaii. Column 5 states the Fuel Related Rate Adjustment for shipments subject to the \$1.30 baseline, for example, the domestic line haul portion of international movements, including Alaska and Hawaii, moving before 1 April 2007; and the line haul portion of domestic interstate and intrastate movements, including Alaska and Hawaii, moving before 1 May 2007.

1. EIA Publication Date	2. Shipment Period	3. EIA Price Per Gallon (\$)	4. \$2.50 Baseline	5. \$1.30 Baseline
